## Important Primary Election Information

One Democratic and three Republican candidates are vying for a space on the ballot for the Texas 93rd Congressional District seat being vacated by Matt Krouse. Since there is only one Democratic candidate, there is no need for a primary, he will automatically be on the ballot. The date for Republic Primary voting is March 1st. Early voting runs from February 14th to the 25th. The winner of the Republican primary will appear on the November ballot with Democratic candidate KC Chowdhury.

This article will focus on the three Republican candidates in the March 1st primary balloting. We urge residents to research the candidates' positions and cast an informed vote. With our area's continuing growth and resulting infrastructure issues, it is critical that we select the best representative to address District 93's unique issues.

The Republican candidates are Lauren Hill, former mayor of Southlake, Cary Moon, a seven year Fort Worth City Councilman for our District 4, and Nate Schatzline, former pastor and education advocate. The following candidate information was extracted from a Fort Worth Star-Telegram article by Eleanor Dearman.

Laura Hill, resident and former Mayor of Southlake. In a virtual Star-Telegram meeting with the candidates, she cited her issues of concern are road and transportation issues created by growth and high school taxes caused by that growth. She wants to look at State grants to fund programs for students of all socio-economic statuses, including a technical training curriculum.

Cary Moon, seven year Fort Worth District 4 councilman. In the virtual interview, he said his concerns were the overreach of government on our civil liberties,, such as vaccine mandates and limitations on free assembly. He cited his service as Chairman of the Regional Transportation Council and his better understanding of funding mechanics of road development as well as his city council work with zoning and development in far North Fort Worth.

Nate Schatzline, founder of *For Liberty & Justice*, an organization that promotes Godly candidates for local government. He stated his priority is education. He is concerned with low reading rates in Fort Worth ISD, which has a small presence in District 93. He opposes the teaching of Critical Race Theory. He also wants to secure Texas' borders and crack down on human trafficking.

Two issues have been raised in this campaign, Cary Moon's 2021 DWI arrest and Laura Hill's residency status—Southlake is not in District 93. Her opponents have made allegations she has not met residency requirements to run in District 93.

## SNA Presidents Corner

First, my apologies for the tardiness on getting this newsletter ready. My wife and I had physicals in early February and have had to see several doctors regarding changes to existing conditions. It's really stressed us out.

You should have received your SNA Membership Renewal Package in the mail. I urge you to renew your membership and help the SNA continue to serve our neighborhood.

I want to urge voters to participate in the March 1 primary voting (see article above). We need a representative who is familiar with the issues created by our explosive growth. Please look at the candidates positions on issues and vote for whom you believe will best represent our area.

## New Area Businesses

The demolition is complete on the vacant bank building located at the N. Beach and Spoonwood intersection in the back of the Albertson's Center. Ground is being moved in preparation for a foundation. The SNA is making inquiries as to what sort of business is planned for this location.

The Summit, a cigar bar, has leased the space in the strip center on the north side of the 3000 block of Western Center Blvd., near the I35W access road. They are renovating the space formerly occupied by Jake's Burgers.

Work is ongoing at the vacant building at 6730 Fossil Bluff Drive, across the street from Boomer Jack's. This building once housed Fat Daddy's Bar and Grill. The new business is a Knockout Sports Bar. Their sign says they specialize in really cold beer and chicken wings.

---

## Developments Currently in Progress

The car wash at the southwest intersection of Sandshell and Basswood Blvds. Is now open for business. It seems to have a pretty good stream of cars using the facility.

Penny Paws Veterinary Clinic's new facility is well into construction in our area. It is located in the 3800 block of Basswood on the vacant land between the existing 7-11 convenience store and the child care center. No completion or opening date is known. It will include full veterinary services and animal boarding services complete with an outside exercise yard that permits workers to take animals outside one at a time throughout the day.

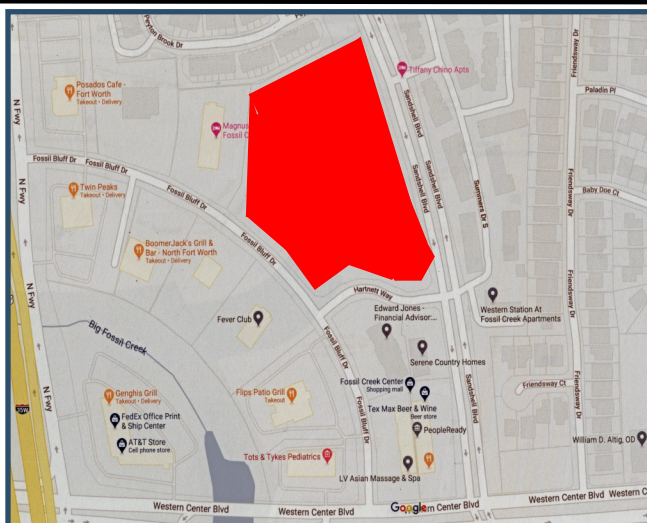

Now a new building, which appears to be storefronts for lease to small businesses, is under construction between Penny Paws and the 7-11,

---

## KISD School Construction Continues in our Area

Since construction on the new Parkview Elementary school started in April, 2021, progress can be seen from the streets. The steel framework for one of the new buildings can be seen going up behind the existing school. The old facilities will be torn down in stages, the current facility has to support students for the remainder of the 2021/22 school year. After completion of the new two story structure much of the old-school will then be taken down. The project is scheduled to complete in June 2022.

The construction phase of the renovation of Fossil Hill Middle School started on April 1st, 2021. . The renovation is scheduled to complete in June 2022.

## Standard Multi-Family Apartments Proposed In Our Area

A zoning change has been approved to allow construction of a 200 unit apartment complex on the land bordered by Fossil Bluff, Hartnett, and Sandshell Blvd.

This is the land just to the south of the Carriage Place townhomes, who's Association the SNA supported during the zoning process.

While the SNA has traditionally opposed new standard multi-family zoning changes, this is not a normal situation. Because of the risk of less desirable construction we conditionally supported building apartments on this land. No date is known for the start of construction.

## Area Road Construction Updates

The extension of the I35W access road from Western Center south and west to the Mark IV Parkway and Loop 820 intersection is well under way. This will allow residents who want to go west on Loop 820 to stay on the I35W south access road from Western all the way to Mark IV, avoiding the traffic snarl at the I35W south and Loop 820 interchange. Once completed, we will almost certainly see the start of commercial and industrial development on the vacant land along the access road.

The project to widen N. Riverside Drive to a four lane road from North Tarrant Parkway northward to the Shiver Road roundabout started in July. Completion is schedule for August 2022. This second N. Riverside Drive road improvement project will provide four lanes from N. Tarrant Parkway northward to the existing Shiver Road traffic circle . It will also rework all four sides of the N. Tarrant and N. Riverside intersection, complete with updated traffic signals and crossings. In the interim, lane closures and construction at the North Tarrant and North Riverside intersection are causing significant traffic delays, especially during peak periods.

---

## Other Developments

You've probably seen news that Fort Worth is considering adding a major soccer complex. It will be a joint development comprised of the City, Keller ISD, soccer associations, and the landowner. It is planned to have a covered 10,000 seat stadium with parking, satellite fields to support youth soccer tournaments and a soccer training facility. The stadium will support both a men's and women's professional soccer teams. It is expected to add millions of soccer-tourism dollars annually to Fort Worth's economy. One of the main sites under consideration is the vacant land along the I35W north access road between Basswood Boulevard and Thompson Road. While the SNA has not yet decided what stance to take should this project come to fruition, we are concerned with the potential noise and traffic impacts to our area from such a facility. Hopefully the development can be designed to minimize these concerns, but we will remain vigilant.

Another seniors only housing facility (55+) is being planned for our area. The proposed location is on the west side of North Beach Street just north of North Tarrant Parkway. Development has started on the vacant land behind the strip center on the west side of North Beach (behind the Sonic).

---

## Construction Started on a Senior Housing Apartment Complex

With the completion of the southern N. Riverside and Summerfields Blvd. road projects, construction has started on the seniors only (55+) multi-family project. The SNA supported this project because we felt it was a better fit than what could be built under that sites commercial zoning. We believe it will have a minimal traffic impact, offer a much needed housing option to area seniors, and pay KISD school taxes without adding any children to the school system. We thought these positives outweighed the loss of a weed-filled field with many low quality trees or a possible strip center.

Concept Drawing

# Citizens Police Academy Accepting Applications

The Fort Worth Police Department will host the next Citizens Police Academy starting **March 8**.

The academy is a 12-week course that meets **every Tuesday from 6 -9 p.m.** The purpose of the academy is to give residents a working knowledge of the FWPDP's policies and procedures.

The classes, instructed by police officers, will cover aspects such as training, criminal investigations and narcotics. Particular emphasis will be placed on the field operations divisions, the part of the department with which the public comes into contact most often.

The expectation is that Citizen Police Academy graduates will gain a deeper understanding of the problems and policies facing Fort Worth police officers, and stronger relationships will be formed between officers and the community.

To receive an application, email Officer Tamelia Carroll at [Tamelia.Carroll@fortworthtexas.gov](mailto:Tamelia.Carroll@fortworthtexas.gov)

## Volunteer Crime Prevention Programs

The City of Fort Worth and the Fort Worth Police Department offer many crime prevention programs for its residents. Two of the most popular are Crime Watch and Citizens on Patrol. Fort Worth has thousands of volunteers currently active in these two programs and both have proven very effective in reducing neighborhood crime. Summerfields has active volunteers in both programs.

Crime Watch is a very successful national program administered by the Fort Worth Police Department. Crime Watch establishes and trains a block of neighbors on how to look after their street. Once a sufficient number of residents in a block are organized, Crime Watch signs are posted on their street and they are trained on how to identify and report possible criminal activities they observe. Who better than the people who live on a street to notice out of place cars and suspicious activity. It's simply good neighbors knowing what to look for and watching out for each other. If you are interested in forming a Crime Watch on your street, you can contact FWPDP Crime Prevention Specialist Rosalinda Mendoza at 817-392-3170.

The Citizen on Patrol (COP) program trains citizen volunteers to actively patrol their community in cars, on foot, and on bicycles. Once volunteers pass a background check, complete a four hour training class, and complete a training ride with an experienced Citizen on Patrol member, they patrol their neighborhoods as their own schedule allows. Upon completion of the training these volunteers are issued police radios and equipment and are ready to patrol on their own.

COP patrollers carry no weapons. There are no scheduled patrols, volunteers simply go out when they have the time. These patrols are strictly non-confrontational, COP patrollers do not approach or get involved in any way with possible offenders. They simply act as extra eyes and ears for the police. They observe, report, and stay at a safe distance from the incident they are observing. Fort Worth's Citizen on Patrol program has received national and international acclaim.

If you are interested in joining Citizens on Patrol, you can contact the North Division COP Coordinator Cindy Strause at 817-392-3172.

Our main code issue in Summerfields is solid waste incorrectly placed curbside. Not following the guidelines usually results in waste not picked up, which detracts from the street's appearance and can lead to fines. No one wants to live in a neighborhood with trash sitting by the street for too long. It detracts from the neighborhood's appearance, makes selling homes more difficult, and eventually lowers property values. Because of this the SNA aggressively monitors waste disposal violations and reports them to Code Compliance. We do not like reporting violations that can result in fines, but there is often no alternatives left to us, We much prefer that residents become educated on the City's waste disposal processes, but will not stand idle while trash accumulates in our neighborhood.

The following are the most common violations we observe:

- Plastic bags containing solid waste (including leaves) placed curbside. *Anything in a plastic bag must be placed in the brown garbage cart to be picked up.* Hardware stores sell acceptable paper yard bags for disposing of yard recyclable waste such as clippings, leaves and small branches
- Bulk waste placed curbside too early, sometimes up to three weeks before the next scheduled pickup. Doing so detracts from the street's appearance and could impact neighbors trying to sell their homes.
- Placing bulk waste too close to objects in the yard. Many of the trucks use hydraulic arms to load waste, and if you place it too close to objects such as mail boxes or light poles it may prevent them from picking it up.
- Different types of bulky waste mixed together. Brush and paper-bagged leaves should be separated from furniture and other bulk items. They are picked up by different trucks and go to different locations. Brush and yard clippings are taken to a City facility where along with the paper bags are converted into mulch. This is the main reason they will not pick up yard waste in non-recyclable plastic bags.
- Mixing waste and recyclable items in the Recycle container. Waste and recyclables are picked up by different trucks. Contaminating the Recycle container with household waste will result in the bin not being emptied.
- Placing household and yard chemicals in the recycle or trash containers. These items should be taken to the Environmental Collection Center (ECC) on Bridge Street. You simply drive though, show your driver's license to show you are a Fort Worth resident, and they empty your vehicle for you. See details on the City's web site.
- Placing any electronic item or major appliance curbside for pick up. All electronics should be taken to Brennen Street for disposal. Electronic items such as TVs have integrated circuitry that contain hazardous chemicals such as arsenic. They are disposed of separately so as not to contaminate the landfills.
- Overflowing Waste and Recycle bins. Called "snow cones" because the lid cannot be closed, they can result in the bin not being emptied. Again, the trucks are automated and if the operator feels they cannot empty the container without spillage they will usually bypass the container, thus leaving the resident with another week before it is again eligible for pick up.
- Trash bins left on the street for days after the scheduled pickup date.

Also remember that small limbs (less than 8 feet in length and four inches in diameter) can be placed curbside for pickup with your scheduled weekly trash. Only larger limbs have to wait for the monthly bulk pick up..

## BULK WASTE GUIDELINES

**Note: Bulk pickup week for Summerfields begins on the second Monday of each month and runs through the following Saturday. Bulk waste should not be placed curbside until the weekend before your scheduled pickup week. For more information we urge our residents to visit the Solid Waste webpage on the City's website (see the link at the end of this article).**

The following information was provided by the City of Fort Worth Solid Waste Department:

**Bulk collection is once a month. The New guidelines are in place, so brush up before your next monthly collection**

The city's Solid Waste Services has new easy-to-follow steps to make residential bulk collection safer and more effective for pickup. (continued on page 6)

## BULK WASTE GUIDELINES—Continued from page 5

The goal is to not only collect the waste, but to dispose of it in a safe manner and, when possible, keep it out of the landfill. For example, tree limbs, branches and yard waste are turned into mulch.

To help curbside pickup go as smoothly as possible, follow the program directions and avoid incurring fines. Here are some best practices and program guidelines:

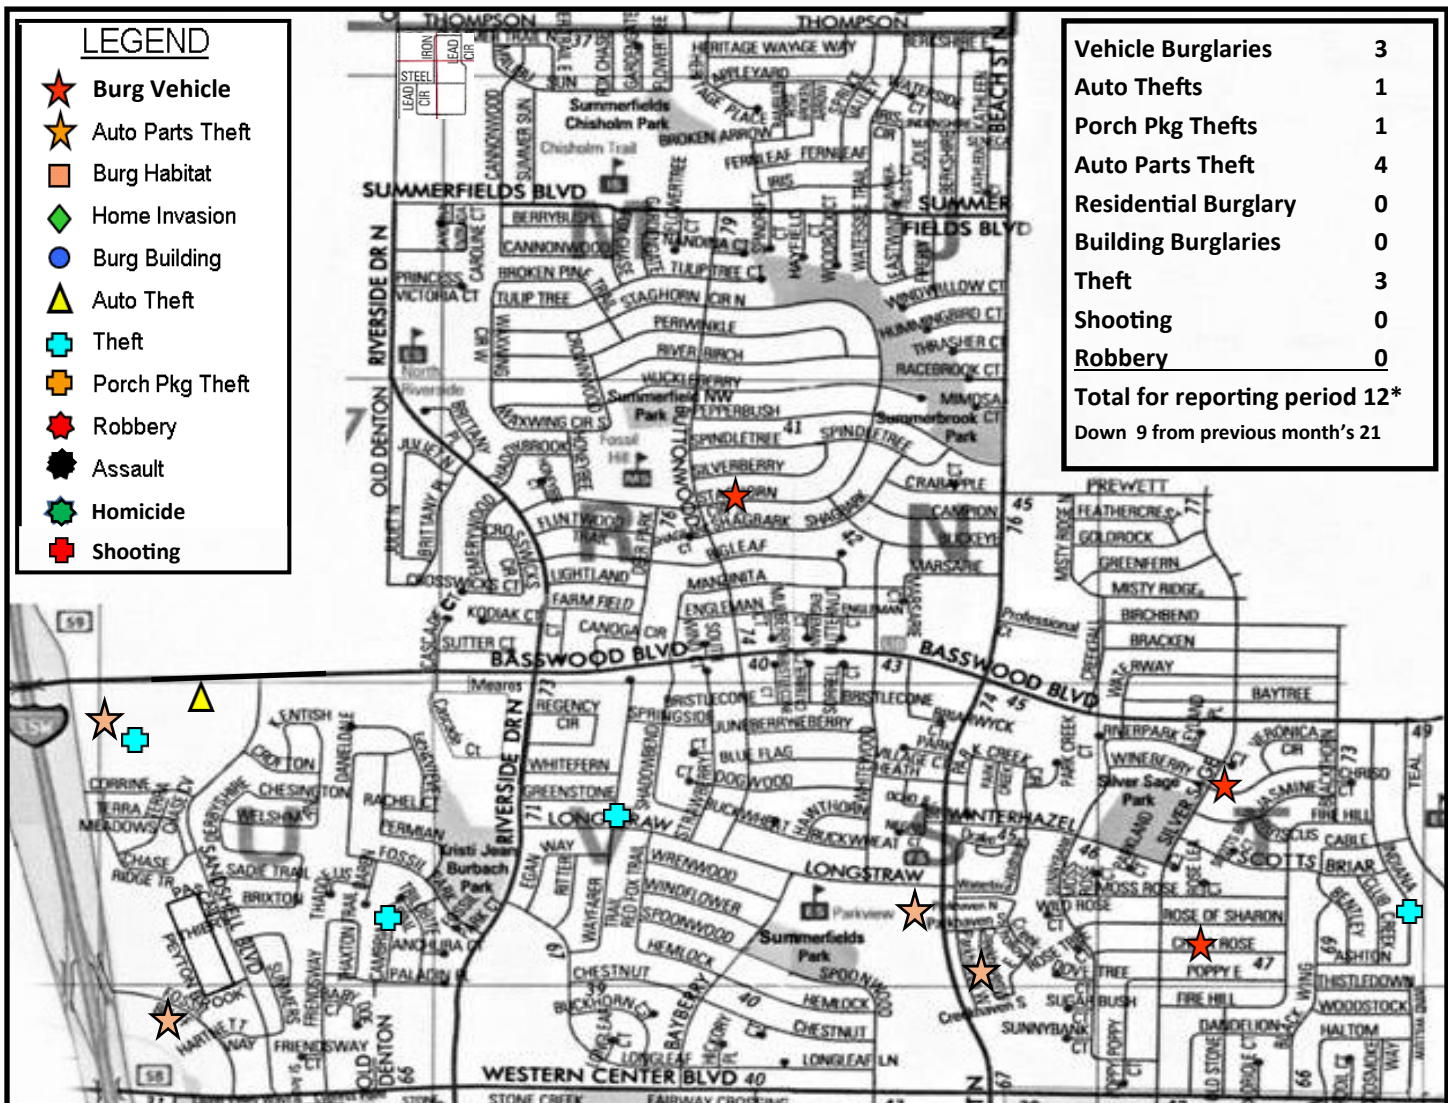

- Bulk items must be placed on the curb by 7 a.m. Monday of your scheduled collection week. Make sure the pile is not blocked by a vehicle.
- Bulk piles are limited to 10 cubic yards (6 feet by 8 feet by 6 feet), the size of a Volkswagen bug car.
- Plastic bags are not allowed outside the trash cart; residents may incur fines if plastic bags are placed curbside.
- All piles, paper yard waste bags and carts must be separated by at least 2 feet to be collected and to avoid extra fees. No materials can be placed between piles since this creates one large, out-of-compliance pile.
- Any items that fit in the brown garbage cart are not considered bulk and should be put in plastic bags and then placed into the brown garbage cart.
- Large limbs refers to those more than 4 inches in diameter and over eight feet long. Brush smaller than this is considered yard waste and can be collected at the curb on your weekly trash pickup day as part of the yard waste collection program. It must be separated from items like mail boxes, carts, large limbs and any bulk piles

To learn more about the program details, including what materials cannot be set out for bulk collection, check the Solid Waste webpage. <http://fortworthtexas.gov/solid-waste/bulk/>.

Solid Waste Services At-A-Glance					
Questions? Download the Fort Worth Garbage & Recycling App					
	WHEN	HOW	AMOUNT/SIZE	DETAILS	NO
<b>YARD</b>	Weekly on pickup day; set out by 7 a.m.	In paper bags, or optional purchase of green yard cart	Unlimited paper yard bags - 30 gallon size	Place 2 ft. from carts or other objects (cars, trees, mailboxes, water and gas meters.)	No plastic bags or trash
<b>Yard Trimmings</b> Leaves, twigs, grass, shrubs					
<b>Brush, Tied</b> Small Branches	Weekly on pickup day; set out by 7 a.m.	Bundled, tied with string or twine	Unlimited bundles, 8 ft. long, 40 lb. max	Place 2 ft. from carts or other objects	No nylon or plastic straps, ties or wire
<b>Brush, Untied</b> Large Branches	Weekly on pickup day; set out by 7 a.m.	Stacked branches only. All branches should be in one pile	Limited to 10 cubic yards (8 ft. long x 6 ft. wide x 6 ft. tall) max, about size of VW Beetle car. Branches no longer than 8 ft. and up to 4 inches in diameter	Place 2 ft. from carts or other objects. More than 10 cubic yds. collected within 72 hours billed to resident	No stumps, plastic bags, trash, fencing, lumber, or household bulk items
<b>RECYCLING</b>	Weekly on pickup day; set out by 7 a.m.	Unbagged items. Close cart lid completely. Clean, dry and empty items.	As much recycling as can fit with the blue cart lid closed. Second blue cart available on request - free.	May take extras to a drop-off station. Only put acceptable items in the cart. Place 2 ft. from carts or other objects	No plastic bags, Styrofoam, paper towels, food, plastic wrap, electronics, clothes, medical waste
Visit website or app for all items that can be recycled. <b>Blue Cart</b>	Can set cart out after 6 p.m. the day before your pickup day				
<b>GARBAGE</b>	Weekly on pickup day; set out by 7 a.m.	In tied plastic bags inside brown cart. Close lid completely. Place 2 ft. from carts or other objects.	Your choice: a -32, 64- or 96-gallon cart (price varies with size). As many bags as can fit in brown cart with lid closed	Options for extra garbage: 1. Take to drop-off station 2. Upgrade cart size 3. Purchase city-authorized Pay Bags	No unbagged items; no bags outside cart or stacked on cart
Household waste only. <b>Brown Cart</b>	Can set cart out after 6 p.m. the day before your pickup day				
<b>BULK ITEMS</b>	Monthly on pickup day; set out by 7 a.m. the Monday of your assigned week; pickup will be any time between that Monday and Saturday	Stacked on curb in one pile. Acceptable items that are too large to fit in the garbage cart. Separate household bulk and large brush piles	Limited to 10 cubic yds. (8 ft long x 6 ft. wide x 6 ft. tall) max; size of a VW Beetle car. More than 10 cubic yds. billed to resident.	Can be set out after 6 p.m. the Friday before your assigned week. Includes fencing, stumps, lumber in bulky pile. Take extra to a drop-off station	No plastic bags, tires, glass, business waste, electronics, sheet-rock, or appliances with coolant or gas
For items too heavy/bulky for the cart. Visit the website or app for more details. Place 2 ft. from carts or other objects.					
<b>DROP-OFF STATIONS</b>	Open: M-F 8 a.m. - 6 p.m. Sat 8 a.m.- 5 p.m. (Hours subject to change) Free for Fort Worth Residents	Drop-off Station #1: 2400 Brennan Ave. 76106 Drop-off Station #2: 5150 Martin Luther King Jr. Frwy 76119 Drop-off Station #3: 6260 Old Hemphill Rd. 76134 Drop-off Station #4: 301 Hillshire 76052		Bring a recent water bill, drivers license or other official ID to prove Fort Worth residency	No commercial waste, no rock or concrete
Fort Worth Residents Only. Accepting recyclables, brush, electronics, items for Goodwill and more!					

## Summerfields Area Crime Map. January 17 thru February 13, 2022

### Summerfields Crime Trends for Last 30 days:

- The last 30 days saw the lowest property crime rates in quite some time. We saw an uptick in catalytic converter thefts, but all other categories were down. Most of the activity remains in the area between Basswood and Western Center and Blvds., mostly because of quick access to freeways for quick get-aways.
- All the vehicle burglaries were of unlocked vehicles.
- The City is seeing a large increase in violent crimes—assaults, homicides, robberies and shootings. The North Division violent crime rate remains very low, with most violent crimes being domestic related.
- All of Fort Worth is seeing a spike in catalytic converters taken from vehicles parked outside and at businesses.

### Crime Prevention Recommendations:

- If you park your car in the driveway, on the street or in a business parking lot, make sure it's locked. Most car burglaries are of unlocked vehicles. We have car burglars from all over Fort Worth come to our area and police say this is because our area has a reputation among thieves for not securing our property!
- Do not leave anything visible from the outside the vehicle. Doing so could motivate a burglar to forcibly enter.
- Close and lock your garage door. Remember, the door from your garage into your house is usually very flimsy!
- Request an assessment of your homes security from FWPd North Division Crime Prevention Specialist Rosalinda Mendoza (817-392-3170). She will survey your home and make recommendations on how to increase your security.
